

## P.E & Sport Premium Projection 2022-2023

### School Context

At Tintagel Primary School, we have designed a curriculum which prepares our young people for a world that will be very different to the one in which we as adults have grown up in. Health and Wellbeing is a significant part of this, with PE fitting into our wider Personal Development strand of school life. We need children to be aware of the physical and mental benefits that being active has for their future.

Within our vision for PE, we are committed to:

- Ensuring there is high quality teaching and learning across the school in all sports and physical activities
- That children are physically literate through possessing the fundamental movement skills
- Children gain a good understanding of health and fitness and strive to improve this
- Children are given opportunities to be physically active during every day. Whether it's on the playground or during their lessons, the link between physically active children and healthy, successful children has been proven
- Larger numbers of children taking part in extra-curricular sports clubs, intra-school competitions and in representing the school at festivals, matches and performances
- Children gain experiences of a wider range of physical activities
- An opportunity for children to not only play but to coach and lead physical activities or sports in a leadership capacity
